

How to hold a virtual Pub Quiz

Step 1: Decide on your platform - Google Hangout, Zoom, House Party, there's so many. Invite your guests and ask each household to set up their team.

Set your entry price, could be per person, or just a voluntary donation!

Step 2: Pick your theme and write the questions

Maybe each household could write one round of questions, you could make one of them tree based!

Step 3: Add some creativity!

You could do a picture round, show the other teams baby photos and they have to guess who in your team it is. Just have some fun with it!

Step 4: Donate!

Your support will make an incredible difference to families in the African Drylands. Donate online or by phone, or set up a JustGiving page for the teams to pay into.
